

UK Flowtechnik

Specialists in flow metering, pumps, couplings
and process measurement equipment

Calibration and Repair Services

**Flow, pressure, temperature, milliamps,
voltage and frequency**

In-house service - rapid calibration turnaround

**Full or traceable services to UKAS, DKD and
national standards**

CERTIFIED

Our calibration equipment can be traced
back to UKAS, DKD & national standards

Your One Stop Shop for... Calibration and Repair

UK Flowtechnik offers a reliable, accurate and efficient calibration and repair service. All of our services are competitively priced with a rapid turnaround guarantee.

FLOW METER CALIBRATION

Calibration range from 0.01 to 1000 L/min, using mineral oil from 15 to 100 cSt

Wide range of media available incl. water, air and fuel

5-point calibration as standard

Results traceable to national standards

Maximum total uncertainty of $\leq \pm 0.5\%$

PRESSURE SENSOR CALIBRATION

Calibration range from 0 to 2800 bar

5-point calibration as standard

Results traceable to UKAS standards

Rapid turnaround

Maximum total uncertainty of $\leq \pm 0.1\%$

TEMPERATURE SENSOR CALIBRATION

Calibration range from -55 to 200°C

5-point calibration as standard

Results traceable to UKAS standards

Rapid turnaround

Maximum total uncertainty of $\leq \pm 0.1\%$

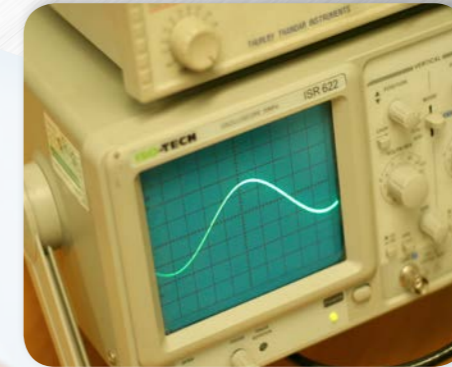

ANALOGUE & DIGITAL GAUGE CALIBRATION

Calibration range from 0 to 2800 bar

10-point calibration as standard (5 rising, 5 falling)

Results traceable to UKAS standards

Maximum total uncertainty of $\leq \pm 0.1\%$

SIGNALS, DISPLAYS & DATALOGGER CALIBRATION

Calibration of mA, voltage & frequency signals

5-point calibration as standard

Results traceable to UKAS standards

Maximum total uncertainty of $\leq \pm 0.5\%$

ACCURATE

UK Flowtechnik utilises high quality calibration equipment certified by national accreditation bodies.

RELIABLE

Our trained technicians carry out calibrations according to strict internal procedures in a clean test environment.

RAPID

All equipment is in-house, allowing for a rapid turnaround of calibrations and ensuring minimal downtime.

REPAIR SERVICE

UK Flowtechnik can provide a full repair service on most flow meters, sensors and instrumentation products if required. Units are normally repaired in the UK or will be forwarded to the original manufacturer for repair estimates if necessary.

UK Flowtechnik

Specialists in flow metering, pumps, couplings
and process measurement equipment

We also offer:

- Pump systems and magnetic drives
- Flow meters and displays
- Oil tanks, heaters and coolers
- Bell housings, couplings and dampening elements
